BRATTLEBORO, VT.

---

WAREHOUSE, No. 57 BEEKMAN ST., NEW YORK.

Orders filled at the Warehouse, or at New Britain.

---

JANUARY 1st, 1867.

---

HARTFORD:

PRESS OF CASE, LOCKWOOD AND COMPANY.

1867.

## EXPLANATION.

ALL Rules embraced in the following Lists, bear the Invoice Number by which they are sold, and are graduated to correspond with the description given of each.

---

## STEARNS' RULES.

Your special attention is requested to the List of Stearns' Rules, commencing with page 11, and containing a full assortment of these Goods, so extensively and favorably known by Dealers, and so highly regarded by Scientific men and Mechanics. For accuracy of measurement, and neatness and durability of make, they maintain their long established reputation.

The Rules are still manufactured at Brattleboro, Vt., under the personal supervision of Mr. CHARLES L. MEAD, (successor to E. A. Stearns & Co.) With the employment of a full corps of long experienced workmen in this establishment, the distinctive merits of these Rules will be preserved, and the facilities for supplying them promptly are greatly increased.

13½.	Square Joint, 8ths and 16ths of inches,	$\frac{1}{8}$ " 7.00

### Patent Spring Joint.

By the use of this improvement, the looseness of the Rule Joint, which is liable to result from constant use, more especially in Two Feet, Two Fold Rules, and Two Feet, Four Fold Rules, is entirely obviated, the Joint retaining its rigidity for any length of time.

The following Rules are made with the Patent Spring Joint.

107.	Arch Joint, Two Fold, Bitted, 8ths and 16ths of inches, Drafting and Octagonal Scales,	$1\frac{1}{2}$ inch wide, \$10.00
111.	Square Joint, Two Fold, 8ths and 16ths of inches,	$1\frac{1}{2}$ " 7.00

The chief points of excellence in these Levels are the following:—Once accurately constructed, they always remain so; the sides and edges are perfectly true, thus combining with a Level a convenient and reliable *straight-edge*; shafting, or other work overhead, may be lined with accuracy by sighting the *bubble* from below through an aperture in the base of the Level; other points are their lightness, strength, and convenience of handling; the glasses are less likely to break by the jar in falling, than when set in wood; all Levels being thoroughly tested, are warranted reliable.

The Patent Combination Try Square and Bevel will be found a valuable acquisition to Carpenters, Cabinet Makers, Stone Cutters, and others, as it combines within itself a perfect Square and Bevel. The blade being made by improved machinery, can be relied upon as correct, and can be used either as an inside or outside Square. In using as a Bevel, adjust the blade to any given angle required, by means of the screw.

 Patent Excelsior Tool Handle.

Whole Handle.

Longitudinal Section.

This handle will be found to be the best article of the kind ever invented, it being simple in its construction, compact, and less liable to get out of order than any other in use; and dispenses entirely with the use of a wrench.

In the end of each handle will be found twenty Bradawls, and Tools for use with it. They are adapted to the various kinds of work of mechanics and others, and are the full size for the various objects designed.

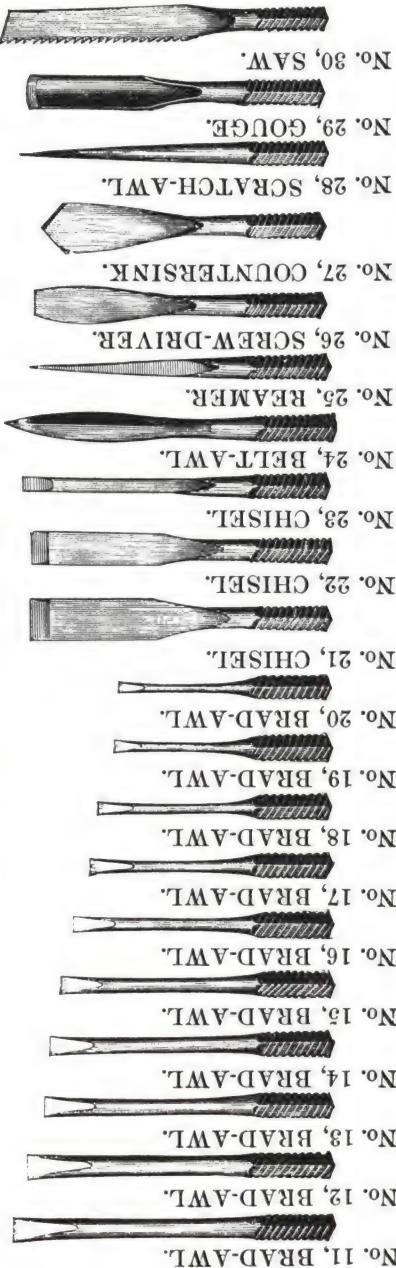

**DIRECTIONS.**—Insert the tool in the clamp. Secure it by use of the screw in end of cap, which may be adjusted to any degree of firmness desired.

Put up in boxes of 1 dozen, with one set of

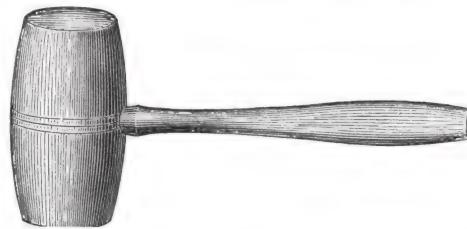

20 Tools in each Handle, - - - \$14.00 per dozen.

For cuts, and price of Tools to go with above Handle, see next page.

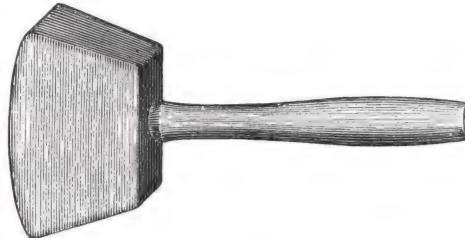

## Tools for use with Patent Tool Handle.

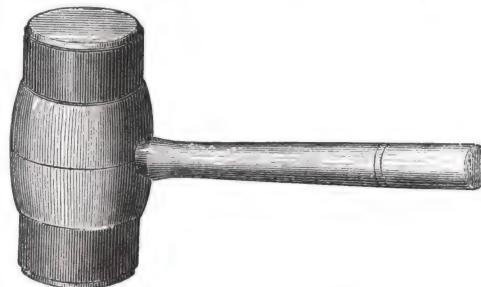

Sets of these Tools will be kept constantly on hand, and can be had when desired, with or without the Handle. Put up in paper boxes, containing one Set of 20 Tools, - - - - - \$0.60 per set.

Patent Grasping Fork and Ladle,

MANUFACTURED BY THE

STANLEY RULE AND LEVEL COMPANY.

Price, - - - - - \$25.00 per gross,

Your attention is called to the above new and convenient article for

**HOUSEKEEPERS.**

This instrument combines the common Fork and Ladle, and is designed for taking up Potatoes and other Vegetables, Fried Cakes, Boiled Eggs, also for Roasting Oysters, &c., &c.

All good Housekeepers are aware of the difficulty of taking up Potatoes with an ordinary fork, particularly when cooked so as to be dry and mealy. This difficulty is entirely obviated by the above article.
